johnchque@gmail.com

Frontend Engineer with 7+ years building scalable web platforms across eCommerce, healthcare, and edtech. Specialised in NextJS and React, with a proven track record of delivering measurable business impact. Experienced leading cross-functional teams and owning product roadmaps, having worked across Denmark, Austria, Switzerland, and Bolivia with international teams.

WORK EXPERIENCE

JAN 2026 - PRESENT, FRONTEND ENGINEER, Liva Healthcare - Copenhagen, Denmark

<https://www.livahealthcare.com/>

Developed critical patient-facing features using React, including a callback request system enabling members to schedule calls with clinicians directly from the platform.

Extended the health coach platform with a tagging system, improving care team organisation and workflows.

Maintained code quality through continuous Jest test coverage and refactoring of legacy code, improving long-term maintainability.

MAY 2024 - DEC 2025, SENIOR FRONTEND ENGINEER, ECCO - Copenhagen, Denmark

<https://ecco.com/>

Drove a 131% and 313% increase in product sales in the US and Canadian markets by building and optimising key features on the eCommerce NextJS platform.

Integrated features for Contentful, Algolia, and CommerceTools into the platform, improving responsiveness, scalability, and content management capabilities.

Collaborated with stakeholders across business and engineering to align technical delivery with commercial goals, ensuring timely and impactful releases.

APR 2024 - PRESENT, PRODUCT OWNER, APPCREDIT - Santa Cruz, Bolivia (Remote, part-time)

<https://app-credit.com/>

Defined and executed a product roadmap using SCRUM, delivering an e-learning platform serving 600 students across 2 countries.

Architected platform structure and coordinated development through Jira.

Built user feedback loops through testing sessions and customer meetings, continuously aligning product priorities with real educational needs.

JUL 2023 - DEC 2023, FRONTEND DEVELOPER, AI:TEXTBOOKS - Copenhagen, Denmark

Led frontend development of a Chrome extension using NextJS that generates dynamic knowledge graphs from web page content, helping students contextualise and retain information.

Designed the company website and pitch decks that supported partnership outreach and early client acquisition.

Engaged directly with early adopters to gather feedback and iterate on the product.

JUL 2019 - DEC 2023, LEAD DEVELOPER, OPENSCHOOL SOLUTIONS - Vienna, Austria (Hybrid)

<https://www.openschoolsolutions.com/>

Led a team of 3 developers in delivering a full-stack learning management system deployed across 6 schools, supporting 8th and 9th grade curricula with the OPENSchool methodology.

Owned both frontend and backend development using Laravel, building scalable features and maintaining CI/CD pipelines to ensure stable, continuous deployments.

Drove product direction by establishing feedback loops with educators, translating classroom needs into prioritised technical improvements.

JAN 2020 - JUL 2021, WEB DEVELOPER, MD SYSTEMS GMBH - Zurich, Switzerland (Remote)

<https://www.md-systems.ch/en>

Contributed to 500+ tasks on Drupal.org across feature development, bug fixes, and module documentation.

Developed custom client features based on user research, improving functionality and satisfaction across multiple projects.

MAY 2019 - MAR 2021, PROJECT LEAD & CO-FOUNDER, QUANTIC GAMES - La Paz, Bolivia

Led Agile game development across 3 projects, securing a place in the City Hall of La Paz Incubator program and winning "Best Audio" at ExpoBix 2019.

JAN 2018 - APR 2019, WEB DEVELOPER, MD SYSTEMS GMBH - Zurich, Switzerland (Remote)

<https://www.md-systems.ch/en>

Authored 100+ contributions to Drupal modules, earning recognition as the 15th top contributor globally.

Presented at Drupal conferences in Germany and Switzerland, and received a full grant to attend DrupalCon Nashville 2018.

EDUCATION

2021 - 2023, MSC IN DIGITAL COMMUNICATION LEADERSHIP, UNIVERSITY OF SALZBURG, AALBORG UNIVERSITY - Copenhagen, Denmark

Graduated with distinction and selected to deliver the graduation speech.

Researched algorithmic fairness, ethical AI, and digital governance, focusing on applying theories of justice to technology design.

2012 - 2018, BSC COMPUTER SYSTEMS ENGINEERING, DEL VALLE UNIVERSITY - La Paz, Bolivia

Delivered the graduation speech for the Class of 2018, recognised for academic excellence and leadership.

Investigated semantic systems, graph databases, and knowledge organisation as tools for improving software project efficiency.

2014 - 2015, EXCHANGE FELLOW, SOKA UNIVERSITY (創価大学) - Tokyo, Japan

Awarded the Makiguchi Scholarship for Foreign Students for outstanding academic performance and commitment to cross-cultural understanding.

PROJECTS AND VOLUNTEERING

OCTOBER 2023 - PRESENT, ORGANISER TEAM, COPENHAGENJS - Copenhagen, Denmark

<https://copenhagenjs.dk/>

Co-organise a monthly frontend community meetup with 70+ attendees, managing event logistics, technical execution, and speaker feedback systems.

AUGUST 2022 - AUGUST 2023, HR & COMMUNITY MANAGER, SUSTAINABILITY ADVOCATES - Copenhagen, Denmark

<https://www.sustainabilityadvocates.dk/>

Recruited and onboarded 30+ volunteers, and partnered with external organisations to deliver workshops, enhancing team knowledge and engagement.

TECHNICAL SKILLS

- Frontend: NextJS, ReactJS, TypeScript, JavaScript, Tailwind, CSS, HTML, Zustand, TanStack Query
- Backend: PHP (Laravel, Drupal, Symfony), Node.js (ExpressJS), Python (Django)
- Databases & APIs: MySQL, Neo4j, SQL Server, GraphQL, REST APIs, WebSockets
- Tools: Git, GitHub Actions, Docker, Linux, Jira, Confluence, Figma
- Testing & Quality: Jest, Playwright, Behat, PHPUnit, CI/CD pipelines
- AI & ML: LLM API integration, MCP gateway development, Python ML basics (pandas, scikit-learn, numpy)
- Additional: React Native, Astro, DataDog

LANGUAGE SKILLS

- Spanish (Native), English (Native/Bilingual), Portuguese (Elementary-Intermediate), Japanese (Beginner)

HONOURS, AWARDS AND ACHIEVEMENTS

- Winner, Future Entrepreneurs of Denmark (2024, Copenhagen), health tech solution addressing gender disparities in medical diagnosis, recognised for market validation and scalability potential.
- Participant, UNLEASH Rwanda (2023, Kigali), selected as 1 of 1000 talents globally with a full scholarship. Part of a team pitching a solution to prevent misdiagnosis of heart attacks and strokes in women in rural Rwanda.
- Participant, Young Sustainable Impact (2018, Oslo), selected as 1 of 24 from 8500+ applicants. Featured in the

documentary "To change the world" (2019). Part of the winning team developing a scalable digital solution for smallholder farmers for Yara International.

- Speaker at Drupal Europe (2018, Darmstadt), Drupal Mountain Camp (2019, Davos), and FLISoL (2019, La Paz).
- Winner, Short Story Contest (2020, La Paz), recognised among 10 winners from 132 participants addressing gender violence.
- JCI TOYP Bolivia Award (2019), honoured in "Personal Improvement and/or Accomplishment", one of 10 winners nationally.
